BACK COVER

Cover Wrap Area | 14.675" x 10.25"
Extend your background to the very edge of the file – there should be no white margin visible.

Fold Line | 13.5" x 9.25"
This is approximately where we'll fold the cover sheet around the hard covers of the book.

Safety Area | 5.375" x 8.75"
Keep all important text & images within the Safety Area to ensure they are fully visible and are not trimmed off.

Hinge/Gusset Area
This area of the book will bend when the book is opened. Content here will look slightly distorted, and will show “wear and tear” faster than the rest of the cover.

IMPORTANT
Please note that your spine width may vary based on the details of your print order. Design your spine in this template as is, and when you place your order, our Prepress team will reformat it to fit your specific book.
